

## **SYSTEM, METHOD, AND ARTICLE OF MANUFACTURE FOR COMMERCE UTILIZING A BAR CODE-RECEIVING TERMINAL**

### **ABSTRACT**

A system, method and article of manufacture are provided for bar code-based electronic commerce. First, a representation of a bar code is received from a user at a terminal. The representation of the bar code is obtained by scanning a bar code of an item. Information relating to obtaining the item is presented on a display of the terminal.

- 5 Input relating to obtaining the item is received from the user in response to the presented information.
